

Webtrees auf einem QNAP NAS

- [Docker Image for webtrees \(github\)](#)

Befehle

Modules und Themes installieren

In den Container wechseln

```
docker exec -it webtrees-app bash
```

Im Container:

Unzip installieren

```
apt update && apt install unzip
```

In das modules_v4 Verzeichnis wechseln:

```
cd /var/www/webtrees/modules_v4/
```

Syntax

```
curl -L <download url> -o <filename>
```

Beispiel für Vesta Webtrees Custom Modules:

```
curl -L https://github.com/JustCarmen/webtrees-fancy-treeview/releases/download/2.0.5/jc-fancy-treeview-2.0.5.zip -o fancy.zip
```

Entpacken

```
unzip fancy.zip
```

Zwischendurch immer mal wieder sichern

```
sudo cp -rp /share/docker/volumes/webtrees /share/docker/volumes/webtrees-save
```

und vergleichen

```
sudo diff -qr /share/docker/volumes/webtrees /share/docker/volumes/webtrees-save
```

Liste aller Modules und Themes

```
curl -L https://github.com/UksusoFF/webtrees-  
faces/archive/refs/heads/master.zip -o faces.zip  
unzip faces.zip  
  
curl -L  
https://github.com/hartenthaler/hh_extended_family/archive/refs/heads/main.z  
ip -o hh_extendet_family.zip  
unzip hh_extendet_family.zip  
  
curl -L https://github.com/JustCarmen/webtrees-fancy-  
imagebar/archive/refs/heads/main.zip -o fancy-imagebar.zip  
unzip fancy-imagebar.zip  
  
curl -L https://github.com/JustCarmen/webtrees-fancy-research-  
links/archive/refs/heads/main.zip -o fancy-research.zip  
unzip fancy-research.zip  
  
curl -L https://cisse.de/vesta.latest.zip -o vesta.zip  
unzip vesta.zip  
  
curl -L https://github.com/magicsunday/webtrees-descendants-  
chart/archive/refs/heads/main.zip -o descendants.zip  
unzip descendants.zip  
  
curl -L https://github.com/magicsunday/webtrees-fan-  
chart/releases/download/2.7.1/webtrees-fan-chart.zip -o fanchart.zip  
unzip fanchart.zip  
  
curl -L https://github.com/magicsunday/webtrees-pedigree-  
chart/releases/download/1.7.2/webtrees-pedigree-chart.zip -o pedigree.zip  
unzip pedigree.zip  
  
curl -L https://github.com/JustCarmen/webtrees-theme-  
justlight/archive/refs/heads/main.zip -o justlight.zip  
unzip justlight.zip  
  
rm *.zip
```
